Subject: Film Production

County Executive –

I am reaching out to see if we might find time for a call over the next couple of weeks to discuss film production. As we move through the phases of re-opening in NYC we recognize that we will have a higher demand from productions than we may be able to accommodate within the city. As such, we are interested in understanding what opportunities exist in our neighboring counties.

We've compiled a list of locations most sought after by productions (outside of what is built on a soundstage). At this moment, we do not have a particular production seeking alternate locations, but we do want to be prepared when production resumes.

It would be immensely helpful to get a sense of what might be able to be accommodated in Putnam, and to also create a direct connection with our office of Media and Entertainment so that we are able to facilitate connections, should the opportunity arise.

We look forward to connecting with you. Please share some availability on your end.

Best,

Ariana
