RE: 2016-2018 Journeyman Renewal Procedure Change

Please note that on March 10, 2016, the Putnam County Plumbing Board determined that those applicants renewing their Journeyman licenses are not required to provide a proof of employment form certifying current employment by a Licensed Master Tradesman. However, please note that; pursuant to Article 190 of the Putnam County code (the "Plumbing Law"), any plumbing or mechanical trades work by a journeyman tradesman must be performed at all times under the employment and direct supervision of a master tradesperson. Any journeyman tradesman found performing plumbing or mechanical trade work in violation of this requirement will be subject to the penalties outlined in the County "Plumbing Law".
