All agencies are advised to obtain written agreements with all agencies they use that are out of state and all commercial agencies they use. Commercial agencies, in or out of state, should also have written assistance agreements. *A copy of all “agreements” with Outside Agencies shall be provided to the County Bureau of Emergency Services, as reference.*

In addition to Fire & EMS Agencies, participation in mutual aid will be permitted with other agencies which may mutually benefit from existing resources. Ie.: NYS DEC, Metro North Railroad.

H. Withdrawal from the Plan

J. Countywide Reporting

J-1 Fire Reporting

The Commissioner shall require each Chief or designated officer of a fire department participating in this plan, to file a copy of a Fire / Incident Report, according to the [National Fire Incident Reporting System](#) (NFIRS) 5.0 standards; on a monthly basis to the New York State Office of Fire Prevention and Control, via the (NFIRS)-1 Form to : OFPC.NFIRS5@DHSES.NY.GOV.

There are three ways to file fire incidents in the NYS Fire Incident Reporting System.

1. **On-Line System** — This on-line data entry system is now fully functional and open to all fire departments and [County Fire Coordinators](#) in New York State. This system provides fire departments the ability to report incidents on line to OFPC. In turn, a fire department can immediately view incidents reported and permits printing of incident report data for official use. Users will also have access to a growing list of selected reports.

New York State's Fire Incident Reporting System is a secure system and requires all users to obtain an account from OFPC. Please be sure to review the [user requirements](#) before requesting an account. To obtain an account, download the [Information Management System Application](#) and submit it to OFPC for approval.

The Office of Fire Prevention and Control provides phone assistance, a cd tutorial, and/or on-site training for the On-Line System. For further information contact the Fire Reporting Unit at (518) 474-6746 or OFPC.NFIRHELP@dhSES.ny.gov.

2. **Electronic Format** - Fire departments may use a NFIRS 5.0 compliant vendor software package to report fire incidents. Incidents are entered into the system by the fire department and the data is electronically transmitted to OFPC. The fire incident data may be on CD, floppy disk or a file attached to an e-mail.

The Putnam County Bureau of Emergency Services provides the Alpine Red Alert NMX Incident Reporting system software to each fire department in the county. The NMX System is a highly customized records management application that includes several modules. It can be configured to meet any department's specifications.

OFPC is not responsible for the compliance of third party reporting systems. If you have any problems with your software, please contact the vendor for help.

3. **Paper Forms** - Fire departments may continue to report incidents on paper forms, currently available from OFPC. These forms will be entered by OFPC staff and the data captured into the New York State database.

J-2 Incident Injury Reporting

The Commissioner shall require each Chief or designated officer of a fire department participating in this plan, to file a copy of a Civilian Causality and Fire Service Casualty Report, according to the [National Fire Incident Reporting System](#) (NFIRS) 5.0 standards; on a monthly basis to the New York State Office of Fire Prevention and Control, via. The (NFIRS-2 / 3) Form(s); for all incidents requiring such.

The NFIRS-2 Civilian Casualty Form is used to report any civilian injury or deaths associated with incidents responded to by the Fire Department. Only one form needs to be completed for each incident, multiple casualties can be listed on same form.

*** Note : The NFRIS is for Civilian and non-fire service emergency personnel.*

The NFIRS-3 Fire Service Causality Form is used to report ONLY Firefighter injuries or Death associated with incidents responded to by the Fire Department

*** Note : The NFRIS is for Fire Service Emergency Personnel – not Civilian or non fire service.*

Included in the "size up" the FAST should be assessing the availability of items like power tools, ladders etc., which would be useful in cases where a Rescue attempt needed to be made. It may also be helpful if the FAST made a thorough assessment of the entire structure and became familiar with means of egress, special hazards and conditions that may affect potential rescue operations.

The IC should not use the FAST for any other duties unless absolutely essential. In that case, Putnam 911 will be directed to assign another FAST to the incident. Anytime a FAST is used at the scene; normal firefighting operations should be limited to supporting the FAST.

IC shall be alert of the necessity of requesting a FAST during any operation that may endanger firefighter and EMS personnel and need not be limited to structural fires.

NEW YORK STATE REGIONAL FIRE ADMINISTRATOR

A. The State Fire Plan

The plan for the efficient utilization of the resources and facilities of the State for fire mobilization and control is formally titled the "State Fire Mobilization and Mutual Aid Plan", or, informally, the "State Fire Plan".

The State Fire Plan is an aggregate of local county fire mutual aid plans that have been prepared and adopted in accordance with a suggested format and formally accepted as part of the State Fire Plan. Even though every county fire mutual aid plan may not be included, every county has some form of mutual aid operating plan or procedure; thus, the State Fire Plan represents the total picture of available aid.

B. Authority and Responsibility

IN PUTNAM, the same individual serves as Commissioner, Bureau of Emergency Services, and Regional Fire Administrator. The responsibility and authority of the Commissioner derives from appointment by the County Administrative Body while authority and responsibility of the Regional Fire Administrator derives from appointment by the Secretary of State.

1. Activation of the State Fire Plan by the Commissioner:

- a. The Commissioner efficiently deploys the fire units in his county under his County Fire Mutual Aid Plan.
- b. When it is evident that fire mutual aid is required from a contiguous county or counties for the aid desired.
- c. When all adjacent counties have provided aid consistent with their own fire protection and defense, and it is evident additional aid is required, the Commissioner originally requesting mutual aid may request activation of the State Fire Mobilization and Mutual Aid Plan by calling an Office of Fire Prevention and Control staff member at a field office or at (518) 474-6746 (24-hour service).

The Office of Fire Prevention and Control staff member will activate the State Fire Plan.

2. Activation of the State Fire Plan Upon Request by a Municipality:

- a. Should a municipality determine the need for assistance, the Chief Executive may direct a request for aid to the Department of State's Office of Fire Prevention and Control.
