Firefighter Emergency Escape Systems

In August 2012, Governor Andrew M. Cuomo signed into law legislation that has an impact on the escape systems firefighters at risk of entrapment at elevations must carry. Section 27-a of the Labor Law requires that employers assess the risk of entrapment at elevations and provide equipment and training to address that particular risk.

This is your link to an online training kit complete with materials to provide additional assistance. Watch the training video and use the additional materials on the page to assist in compliance with the Law.
