

## Battery Energy Storage Systems: Resources for First Responders

Presented by NYSERDA with the  
Putnam County Bureau of Emergency Services

Learn how your community can prepare for energy storage project development safely and efficiently by adopting the tools and best practices in the **Battery Energy Storage System Guidebook**.

**Date:** Tuesday, April 7, 2020

**Time:** 7 PM – 9 PM

**Location:** Putnam County Bureau of Emergency Services  
112 Old Route 6  
Carmel, NY 10512

**RSVP:** Email 'April 7 RSVP' to [cleanenergyhelp@nyserdera.ny.gov](mailto:cleanenergyhelp@nyserdera.ny.gov)

### This workshop will:

- > Present information about battery energy storage technology basics
- > Identify important code and safety considerations for project siting
- > Feature curriculum tailored specifically for first responders

## HOW YOUR COMMUNITY BENEFITS

### Energy Storage Guidebook

Access information, tools, and step-by-step instructions to help you navigate important aspects of battery energy storage development:

- Planning and zoning, including decommissioning at the end of a system's useful life
- Permitting and inspections
- Emergency Operations Plan development

Download your copy of the Guidebook at [nyserdera.ny.gov/StorageGuidebook](https://nyserdera.ny.gov/StorageGuidebook)

### Free Technical Assistance

Take advantage of free technical assistance to help you implement the policies and practices outlined in the Guidebook. We will work with you and your colleagues one-on-one to:

- Answer questions about energy storage
- Adopt a model battery energy storage law
- Help your town procure battery energy storage solutions

Email [cleanenergyhelp@nyserdera.ny.gov](mailto:cleanenergyhelp@nyserdera.ny.gov) with your questions or to request free assistance.
